ITEM #VARIES

P-ATR5/8 SERIES ALL THREAD ROD, 5/8 IN.

The P-ATR5/8 Series All Thread Rods are designed for anchoring and fastening applications where adjustable threaded connections are required. The fully threaded configuration allows nuts to be positioned along the rod to accommodate installation requirements.

Manufactured from zinc-plated steel, these rods can be used in concrete anchoring, structural bracing, and wood framing assemblies.

SPECIFICATIONS

APPLICATIONS	Designed for use in applications commonly served by all thread rods. • Concrete anchoring • Structural bracing connections • Wood framing assemblies • Adjustable threaded fastening applications
MATERIAL	Zinc-Plated Steel
FEATURES	• Fully threaded rod for adjustable nut placement • Compatible with standard nuts and washers • Suitable for anchoring and fastening applications • Zinc-plated finish for corrosion resistance
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
