ITEM #H1615

P-SB1X30 STEEL ANCHOR BOLT - 30 IN., WITH NUT AND WASHERS

The P-SB1X30 Steel Anchor Bolt is designed for embedding in concrete foundations to provide a secure connection point for structural framing, base plates, posts, or equipment.

Featuring a threaded end for attachment and supplied with one nut and one washer, this anchor bolt supports typical foundation-to-structure connection applications in residential and light commercial construction.

Manufactured from steel for durability in embedded concrete environments.

SPECIFICATIONS

APPLICATIONS	• Foundation-to-framing connections • Base plate anchorage • Post anchorage in concrete • Equipment anchoring
MATERIAL	Steel
FEATURES	• Designed for embedment in concrete foundations • Threaded end for attachment of structural components • Supplied with matching nut and washer • Suitable for residential and light commercial construction applications
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
