P-BN18 SERIES 18-GAUGE BRAD NAILS

18-gauge brad nails are designed for fastening trim, molding, and light wood components in interior finish carpentry applications. The small-diameter profile supports installation in delicate materials commonly used in trim and cabinetry work.

Manufactured from steel with an electrogalvanized finish, these nails are compatible with commonly used 18-gauge brad nailers. The collated format supports consistent feeding and efficient installation during finish carpentry projects.

SPECIFICATIONS

APPLICATIONS	• Interior trim and molding installation • Cabinetry and millwork assembly • Baseboard and casing attachment • Light wood-to-wood fastening in finish carpentry • Interior repair or retrofit trim work
MATERIAL	Steel with electrogalvanized coating
FEATURES	• 18-gauge profile suited for trim and finish carpentry • Compatible with commonly used 18-gauge brad nailers • Small diameter supports clean installation in trim materials • Electrogalvanized finish for interior corrosion protection • Collated format supports consistent nail feeding
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
