ITEM #H1630

1 IN. HEX NUT

The 1 in. hex nut is used with threaded rod and bolts to secure connections in structural and general fastening applications. Manufactured from hot-dip galvanized steel, it provides corrosion resistance suitable for exterior and exposed installations. The standard hex profile allows installation with common hand and power tools

SPECIFICATIONS

PACKAGE CONTAINS	120 pcs/carton
MATERIAL	Galvanized Steel
FEATURES	Standard hex nut for threaded connections Hot-dip galvanized for corrosion resistance Compatible with bolts and threaded rod Hex profile supports common installation tools Suitable for general and structural fastening
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
