P-LUS SERIES FACE MOUNT JOIST HANGER

The P-LUS Series Face Mount Joist Hangers are designed to attach wood joists to beams, headers, or girders in wood-framed construction. The face-mount configuration allows installation directly to supporting framing members.

Manufactured from galvanized steel, these connectors provide attachment points for joists in floor, deck, and framing assemblies.

SPECIFICATIONS

APPLICATIONS	Designed for use in applications commonly served by face mount joist hangers. • Floor framing assemblies • Deck joist connections • Beam-to-joist connections • Header or girder joist attachment
MATERIAL	Galvanized Steel
FEATURES	• Face-mount configuration for attachment to beams or headers • Designed for installation of nominal dimension lumber joists • Pre-punched holes for fastener installation • Galvanized steel construction for corrosion resistance
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
