ITEM #H1640

P-MSTC40 MEDIUM STRAP TIE, 40-1/4 IN.

The P-MSTC40 Medium Strap Tie is designed to connect wood framing members in construction assemblies. Its extended strap length allows installation across framing joints such as plates, studs, and other wood members.

Manufactured from 16-gauge galvanized steel, the connector installs flat against framing surfaces and attaches using standard fasteners through pre-punched holes and slots.

SPECIFICATIONS

APPLICATIONS	Designed for use in applications commonly served by medium strap ties. • Wood framing connections • Plate-to-stud connections • Framing member reinforcement • Repair or retrofit applications
MATERIAL	16-Gauge Galvanized Steel
FEATURES	• Medium strap configuration for wood framing connections • Countersunk slots for low-profile installation • Pre-punched holes for fastener placement • Galvanized steel construction for corrosion resistance
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
