ITEM #H1641

P-NSG NAIL STUD GUARD

The P-NSG Nail Stud Guard is designed to protect plumbing, wiring, and other utilities routed through wood framing members from fastener penetration.

Manufactured from 16-gauge galvanized steel for durability and corrosion resistance.

SPECIFICATIONS

APPLICATIONS	• Protection for plumbing lines in stud walls • Protection for electrical wiring in framing cavities • Wood-framed wall construction • Residential and light commercial framing
MATERIAL	16-Gauge Galvanized Steel
FEATURES	• Helps protect utilities from fastener penetration • Designed for installation over studs where utilities pass through • Pre-formed profile allows easy installation • Galvanized steel construction for durability
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
