ITEM #H1655

STAPLE GUN STAPLES

The 3/8 in. staple gun staples are designed for fastening lightweight materials in construction, finishing, and general installation applications. The staple profile is compatible with commonly used staple guns that accept 3/8 in. leg length fasteners.

Manufactured from galvanized wire, these staples are suited for interior and limited exterior use where corrosion protection is required. The staple format supports efficient installation in repetitive fastening tasks.

SPECIFICATIONS

APPLICATIONS	• Housewrap installation • Insulation fastening • Fabric and upholstery attachment • Light sheathing and underlayment fastening • General construction and finishing applications
MATERIAL	Carbon Steel
FEATURES	• 3/8 in. leg length for general-purpose fastening • Compatible with commonly used staple guns • Flat crown profile for surface material attachment • Galvanized wire construction for typical jobsite conditions • Suitable for high-volume fastening tasks
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
