ITEM #H4422

P-HTU26 HEAVY DUTY TRUSS HANGER

The P-HTU26 Heavy-Duty Truss Hanger is designed to support installation of 2 in. × 6 in. framing members to beams, headers, or wall plates. The U-shaped configuration provides a centered seat for framing members and installs using standard fasteners through pre-punched holes.

Manufactured from galvanized steel for corrosion resistance in interior and exterior framing environments.

SPECIFICATIONS

APPLICATIONS	Designed for use in applications commonly served by heavy duty truss hangers • 2 × 6 truss connections • 2 × 6 joist connections • Beam-to-joist framing assemblies • Residential and light commercial wood framing
MATERIAL	Galvanized Steel
FEATURES	• Designed for dimensional compatibility with common 2 × 6 hanger profiles • U-shaped seat supports framing member placement • Pre-punched holes for fastener installation • Formed steel construction for durability • Galvanized finish for corrosion resistance
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
