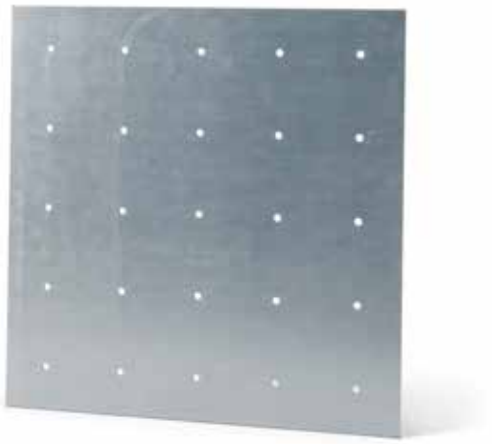
ITEM #H4432

# P-GP1212 12 × 12 IN. GUSSET PLATE



The P-GP1212 Gusset Plate is designed to connect intersecting wood framing members in structural assemblies. The flat plate configuration allows attachment across joints such as trusses, braces, and framing intersections.

Manufactured from 16-gauge galvanized steel, the plate provides a connection surface for fastening multiple framing members in wood construction applications.

## SPECIFICATIONS

| | |
|---|---|
| **APPLICATIONS** | Designed for use in applications commonly served by gusset plates.<br>• Truss connections<br>• Brace-to-frame connections<br>• Framing intersections<br>• Wood structural assemblies |
| **MATERIAL** | 16-Gauge Galvanized Steel |
| **FEATURES** | • Flat plate configuration for multi-member connections<br>• Pre-punched holes for fastener installation<br>• Can be installed on one or both sides of framing connections<br>• Galvanized steel construction for corrosion resistance |
| **INSTALLATION NOTES** | Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes. |
| **WARRANTY** | Limited 1-Year |
