ITEM #H4433

P-ECCQ END COLUMN CAP

The P-ECCQ44SDS2.5 End Column Cap is designed for dimensional compatibility with nominal 4x lumber. This connector attaches posts to intersecting beams or framing members at end conditions in wood-framed construction.

Manufactured from galvanized steel, the cap provides an attachment point for column-to-beam connections in exterior framing applications such as decks and patio covers.

SPECIFICATIONS

APPLICATIONS	Designed for use in applications commonly served by end column caps for nominal 4x posts. • Column-to-beam end connections • Deck framing • Patio covers • Exterior wood structures
MATERIAL	Galvanized Steel
FEATURES	• Designed for compatibility with nominal 4x posts • Connects posts to intersecting beams or framing members • Suitable for end-column framing conditions • Galvanized steel construction for corrosion resistance • Pre-punched holes for fastener installation
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
