ITEM #H4437

P-LTTP2 LIGHT TENSION TIE

The P-LTTP2 Light Tension Tie is designed to connect wood framing members across floor, wall, and roof assemblies. The compact strap configuration allows installation along framing surfaces to connect components such as studs, plates, and rafters.

Manufactured from 10-gauge galvanized steel for corrosion resistance in interior and exterior environments.

SPECIFICATIONS

APPLICATIONS	Designed for use in applications commonly served by compact tension ties. • Floor-to-wall framing connections • Wall-to-roof framing connections • Stud-to-plate tie applications • Wood framing assemblies
MATERIAL	10-Gauge Galvanized Steel
FEATURES	• Compact strap configuration for connecting framing members • Compatible with common wood framing layouts • Pre-punched holes for fastener installation • Galvanized steel construction for corrosion resistance
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
