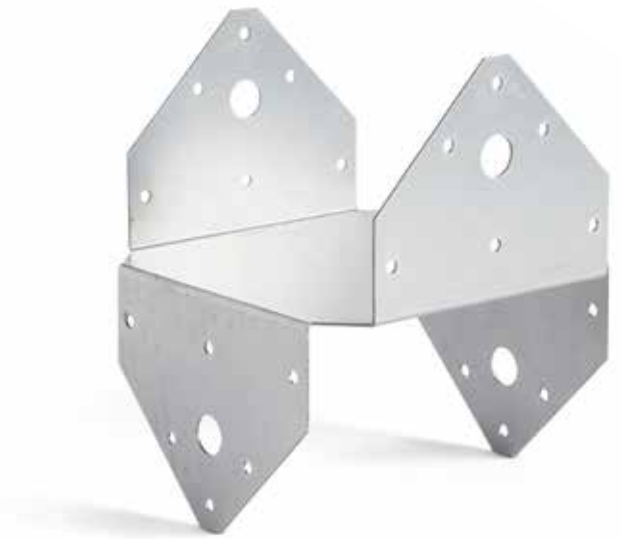
ITEM #H4439

P-BC6 POST CAP, 6 IN.



The P-BC6 Post Cap is engineered for dimensional compatibility with nominal 6x lumber. Designed to connect a 6x beam to a 6x post, this connector provides alignment and attachment in light-frame wood construction applications.

The wrap-around configuration helps position the beam during installation. Manufactured from formed steel with a zinc-coated finish for corrosion resistance in interior and exterior environments.

SPECIFICATIONS

APPLICATIONS	Designed for use in applications commonly served by 6x post cap connectors. • Deck framing • Patio covers • Pergolas • Porch roofs • Light-frame wood structures
MATERIAL	Formed Steel
FEATURES	• Designed for compatibility with nominal 6x beams and posts • Wrap-around configuration assists with alignment during installation • Pre-punched nail holes for attachment • Suitable for interior and exterior framing applications
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
