ITEM #H4440-L, #H4441-R

P-ECCLL666, P-ECCLR666 L-SHAPE END COLUMN CAP

Designed for dimensional compatibility with nominal 6x lumber, the P-ECCL666 Series L-Shape End Column Caps provide structural alignment and reinforcement at column-to-beam end conditions.

Available in both left- and right-direction configurations, these connectors are engineered to match common dimensional profiles used in deck, patio cover, and exterior framing applications.

SPECIFICATIONS

APPLICATIONS	• Column to beam end connections • Deck framing • Patio covers • Exterior wood structures
MATERIAL	Stainless Steel
FEATURES	• Available in left and right configurations • Designed for compatibility with nominal 6x posts • Matches common dimensional profiles used in standard framing • Steel construction for strength and durability • Suitable for exterior framing applications
INSTALLATION NOTES	Proponents hardware is engineered for dimensional compatibility with industry standard connector profiles. Products are manufactured to published industry specifications. Fastener type, quantity, and installation requirements should be verified by the installer or design professional based on project requirements and applicable building codes.
WARRANTY	Limited 1-Year
