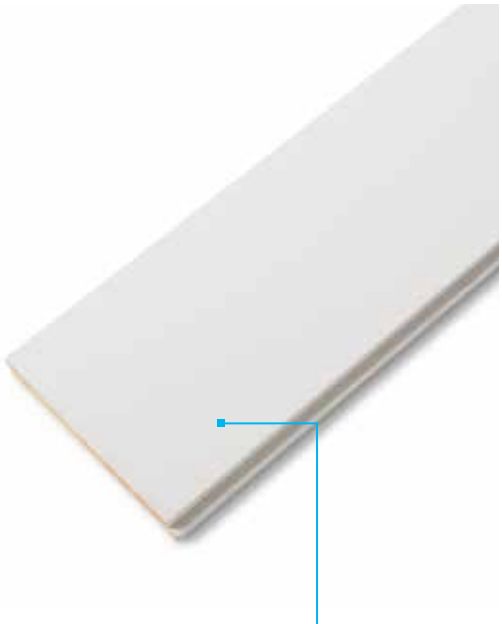
ITEM #IF2201

MDF SHIPLAP WALL PLANKS MOULDING



These MDF shiplap wall planks are designed for interior wall and ceiling cladding where consistent sizing and paint-ready surfaces are required. Each plank is factory primed on the face and back using gesso and waterproof glue to help reduce moisture absorption and improve dimensional stability. The shiplap edge profile creates a controlled overlap for uniform spacing, while the 10-ft length helps reduce seams during installation.

SPECIFICATIONS

APPLICATIONS	• Interior shiplap wall cladding • Accent and feature walls • Interior ceilings • Wainscoting and decorative wall treatments • Residential interiors • Light commercial interiors
MATERIAL	MDF (Medium Density Fiberboard)
FEATURES	• MDF construction for uniform thickness and straightness • Shiplap edge profile for controlled overlap • Gessoed surface • Waterproof glue primer applied to face and backside • Factory primed and paint ready • Consistent dimensions for easier layout • 10 ft lengths reduce joint frequency
INSTALLATION NOTES	Interior use only. Acclimate material on site prior to installation. Fasten to studs or approved substrate using finish nails or brads. Maintain expansion gaps per MDF installation practices. Seal cut ends with primer before installation. Do not install in wet or exterior environments. Finish with compatible interior paint systems.
DIMENSIONS	0.5625" D × 7.25" W × 120" L
WARRANTY	Limited 1-Year
