ITEM #M1718

RETURN AIR FILTER GRILLE

This 16 in. x 16 in. return air filter grille combines air return and filter access in a single, builder-friendly solution for residential and light commercial HVAC systems. The integrated filter opening allows for quick filter changes without accessing the air handler, improving serviceability and reducing maintenance time.

A fixed-louver face supports steady airflow, while the durable metal construction and factory matte white finish provide a clean, consistent appearance. Designed for standard openings and packaged in bulk, this grille supports efficient installation and material handling on large-scale projects.
