INTERIOR DOOR 2-PANEL, HOLLOW-CORE

This 2-panel interior door is sold as a complete kit for fast, professional installation. Each package includes a factory-finished hollow-core door slab, knockdown jamb set with header, pre-mortised hinge and latch preps, and three interior hinges with matching screws. Lightweight yet durable, the clean square-top design complements Craftsman, Transitional, and Contemporary interiors.

Passage and Privacy handles are also available.

SPECIFICATIONS

APPLICATIONS	• Interior doors for bedrooms, bathrooms, and closets • Residential single-family homes and multifamily housing • New construction and remodeling projects
MATERIAL	Composite hollow-core door with molded MDF surface and honeycomb paper filler, paired with solid wood jamb components
FEATURES	• Smooth 2-panel interior door design • Lightweight hollow-core construction for easier handling • Pre-primed white surface ready for paint • Includes solid wood jamb components and hinges • Pre-bored for standard residential door hardware
INSTALLATION NOTES	Designed for interior installation with supplied jamb components and hinges. Assemble and shim jamb to ensure the frame is level, plumb, and square before fastening. Install hinges using supplied screws and align with pre-mortised hinge locations. Door is pre-bored for standard lockset hardware. Seal and paint all primed surfaces after installation.
