ITEM #P1424

DROP-IN SINGLE HOLE CERAMIC BATHROOM SINK

This 23 in. × 18 in. drop-in bathroom sink is crafted from premium vitreous china with a durable, high-gloss finish that resists stains, scratches, and fading. The sink's sculpted edges, soft curves, and layered rim add timeless character, fitting seamlessly in both traditional and transitional spaces.

The deep bowl with a sloped bottom allows water to drain quickly, while the front chrome-finished overflow prevents spills and protects countertops. Pre-drilled with a single faucet hole and a standard 1-3/4 in. drain opening, this sink installs easily on most bathroom vanities. With its combination of classic design, practical function, and easy installation, it's an ideal solution for bathrooms in new construction or remodels.

SPECIFICATIONS

APPLICATIONS	• Residential bathroom vanities • Multi-family housing units • Condo and apartment bathrooms • Bathroom remodel and replacement projects
MATERIAL	Vitreous china (ceramic) with high-gloss glazed finish
FEATURES	• Drop-in / self-rimming installation • Single pre-drilled faucet hole • Integrated front overflow • Durable vitreous china construction • Non-porous, high-gloss finish resistant to stains and scratches
INSTALLATION NOTES	Designed for drop-in installation on standard vanity countertops. Verify cutout dimensions before installation. Apply plumber's putty or silicone sealant beneath the rim to create a watertight seal. Connect faucet and standard 1¾" drain assembly and ensure overflow is properly aligned with the drain system.
DIMENSIONS	Overall: 23.25" W × 18.125" D × 8.6875" H Bowl depth: approximately 6.875" Drain opening: standard 1.75"
WARRANTY	5-Year Limited Warranty (finish and sink body); 1-Year coverage on spare parts and accessories.

5 YEAR WARRANTY
