ACRYLIC SHOWER BASES

This acrylic shower base is designed for floor-mounted shower installations. The base is constructed from ABS reinforced with an acrylic surface and includes a center drain opening and a three-side flange for alcove installations. The pan is formed with a built-in slope to direct water toward the drain. Each unit includes a drainer and is packaged individually.

SPECIFICATIONS

APPLICATIONS	• Residential bathroom showers • Multi-family housing bathrooms • Alcove shower installations • New construction and remodels
MATERIAL	ABS with acrylic surface
FEATURES	• ABS reinforced acrylic construction • Center drain location • Three-side flange for alcove installations • Floor-mounted installation • White finish • Includes drainer • cUPC certified
INSTALLATION NOTES	Install on a level, prepared subfloor. Verify drain alignment before setting the base. Seal and fasten flange to wall framing or backing per enclosure requirements. Apply waterproof sealant along flange-to-wall connection. Handle carefully to avoid surface damage.
