SINGLE HOLE BATHROOM FAUCET + POPUP DRAIN

This bathroom faucet combines modern design with durable construction. Built from 304 stainless steel, the faucet features a single-handle, single hole design with a ceramic cartridge for long-lasting, drip-free operation.

An ABS aerator delivers a steady stream while limiting water use to 1.5 GPM at 60 PSI. Includes push pop-up drain with an overflow hole.

SPECIFICATIONS

APPLICATIONS	• Residential bathroom vanity sinks • Multi-family housing bathrooms • Condo and apartment bathrooms • Light commercial restroom sinks
MATERIAL	304 stainless steel body with ceramic cartridge and ABS aerator
FEATURES	• Single-handle, single-hole faucet design • Durable 304 stainless steel construction • Ceramic cartridge for drip-free operation • 1.5 GPM aerator for water efficiency • Includes pop-up drain and braided supply hoses
INSTALLATION NOTES	Install the pop-up drain first, sealing beneath the drain flange and lining up the overflow hole with the sink's overflow opening. Set the faucet on the deck and secure it from below. Connect water supplies using the included braided supply hoses. Flush supply lines before connection. Use plumber's tape on threaded fittings. Check for leaks after installation..
DIMENSIONS	6-3/4" H × 1-3/4" W × 5-11/16" D
WARRANTY	Limited 5-Year Warranty

5 YEAR WARRANTY
