ITEM #PICKLEBALL-KIT

PICKLEBALL COURT KIT

This kit bundles a full pickleball court into a single package: the court, a tournament-height net and posts, and a complete chain link perimeter fence with a walk-through gate. Every fence component is included, from posts and top rail to tension bars, bands, and tie wire, so crews can build the enclosure without sourcing parts separately.

The kit is built for single-site installation in multifamily and residential community amenity areas.

SPECIFICATIONS

APPLICATIONS	• Pickleball court build-out for multifamily communities • Residential construction amenity package • Clubhouse and recreation area upgrades • Elevated or rooftop courts (with access option)
KIT CONTENTS	• Pickleball Court Flooring: single-layer surface, 60 ft. × 30 ft. (18.35 m × 9.1 m).
